AIMTEST for 73MM Cannon

AIMTEST 73MM-2A28
NSN: N/A

The .50 caliber (12.7mm) sub-caliber designed specifically for the 2A28 cannon on the BMP-1. The kit includes the AIMTEST device, electrical connections, ammunition holders; all enclosed in a weatherproof storage case. Features the extremely accurate AAC designed .50 caliber barrel.

Price: \$25,000.00

Order #: 61672 for BMP I series

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts
except solenoid

1 year Limited Warranty for solenoid

AIMTEST for 90MM Cannon

AIMTEST-MKII 90MM-MK8
NSN: TBA
(INTERNALLY RECOILED)

The internally recoiled .50 caliber (12.7mm) sub-caliber designed specifically for the Cockerill MK8 cannon. The kit includes the AIMTEST device, electrical connections, ammunition holders; all enclosed in a weatherproof storage case. Features the extremely accurate AAC designed .50 caliber barrel.

Price: \$35,000.00

Order #: 61660

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts
except solenoid

1 year Limited Warranty for solenoid

AIMTEST for 105MM Cannons

AIMTEST-MKII 105MM-M68 or L-7
NSN: TBA
(INTERNALLY RECOILED)

The internally recoiled .50 caliber (12.7mm) sub-caliber designed specifically for the M68 cannon on the M60 series tanks and the L-7 on Leopard-1 series tanks. The kit includes the AIMTEST device, electrical connections, ammunition holders; all enclosed in a weatherproof storage case. Features the extremely accurate AAC designed .50 caliber barrel.

Price: \$35,000.00

Order #: 61633 for M60 Series
 61675 for Leopard I Series

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts except solenoid
 1 year Limited Warranty for solenoid

AIMTEST 105MM-M68 or L-7
NSN: TBA

The .50 caliber (12.7mm) sub-caliber designed specifically for M68 cannon on the M60 series tanks and the L-7 on Leopard-1 series tanks. The kit includes the AIMTEST device, electrical connections, ammunition holders; all enclosed in a weatherproof storage case. Features the extremely accurate AAC designed .50 caliber barrel.

Price: \$25,000.00

Order #: 51129 for M60 series
 51143 for Leopard I series

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts except solenoid
 1 year Limited Warranty for solenoid

AIMTEST for 115MM Cannons

AIMTEST 115MM-2A20
NSN: TBA

The internally recoiled .50 caliber (12.7mm) sub-caliber designed specifically for the 2A20 cannon on the T-62 tank. The kit includes the AIMTEST device, electrical connections, ammunition holders; all enclosed in a weatherproof storage case. Features the extremely accurate AAC designed .50 caliber barrel.

Price: \$25,000.00

Order #: 60561

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts except solenoid
1 year Limited Warranty for solenoid

Gunnery Training System (GTS) for 25mm Gun Systems

[weapon not included](#)

GTS M242
NSN: TBA

The Gunnery Training System (GTS) is designed to provide M2/M3 Bradley A2 and LAV-25 crews with a .50 caliber gunnery training device for training preliminary gunnery tables and all practice tables. The GTS M242 is specifically designed for the M2/M3 Bradley A2 and the LAV-25 manufactured by GDLS-Canada. The integration system is designed to work with the M2/M3 Bradley A2 or LAV-25 fire control systems and is easily installed within 15 minutes by crewmembers. An optional 7.62mm version, when limited by range restrictions, is also available. (Shown on next page)

Price: \$35,000.00

Order #: 70348 for Bradley A2 ODS
70349 for LAV-25

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts except solenoid
1 year Limited Warranty for solenoid

Gunnery Training System (GTS)-7.62MM for 25mm Gun Systems

[weapon not included](#)

GTS M242-7.62
NSN: TBA

The Gunnery Training System (GTS) 7.62 is designed to provide M2/M3 Bradley A2 and LAV-25 crews a gunnery training device for training preliminary gunnery tables and all practice tables when limited range space is available. The GTS 7.62 is specifically designed for the M2/M3 Bradley A2 and the LAV-25 manufactured by GDLS-Canada. The integration system is designed to work with the M2/M3 Bradley A2 or LAV-25 fire control systems and is easily installed within 15 minutes by crewmembers.

Price: \$35,000.00

Order #: 70350 for Bradley A2-ODS
70500 for LAV-25

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts except solenoid
1 year Limited Warranty for solenoid

Gunnery Training System (GTS) for 30mm Gun Systems

weapon not included

GTS 30MM-MK44
NSN: TBA

The Gunnery Training System (GTS) is designed to provide MK44 chain-gun crews with a .50 caliber gunnery training device for training preliminary gunnery tables and all practice tables. The GTS 30MM-MK44 is specifically designed for the MK44 chain-gun manufactured by ATK. The integration system is designed to work with the chain-gun vehicle's fire control systems and is easily installed within 15 minutes by crewmembers.

Price: \$65,000.00

Order #: 70587

Minimum Order: 10ea

Warranty: 3 year Limited Warranty all parts except solenoid
1 year Limited Warranty for solenoid

New Equipment Training (NET) – AIMTEST

 <p>The logo for AAC Gunnery Training Solutions features the letters 'AAC' in a bold, blue, sans-serif font, centered within a blue and yellow oval. Below the oval, the words 'GUNNERY TRAINING SOLUTIONS' are written in a smaller, blue, sans-serif font.</p>	<p>Sub-Caliber New Equipment Training (CONUS) AAC certified, sub caliber gunnery trainer(s) instruct AIMTEST users in the basic operation and maintenance of their AIMTEST devices. Trainer(s) travels to customer location within the Continental United States and teaches up to six students per trainer, to inspect, install, operate, maintain, repair, and store the AIMTEST sub-caliber gunnery training device. An Exportable Training Package is provided so units can continue to train new AIMTEST users and provide refresher training as required.</p> <p>Price: \$18,500.00</p> <p>Order #: NET001</p> <p>Type: Service</p>
