*Realistic, cost-effective solutions for main gun
live-fire training on armor and infantry fighting
vehicles.*

GTS-M242

Features & Benefits

- The GTS-M242 device is easily deployable to training areas and is supportable at the unit level.
- Ease of installation, operation, and maintenance ensures efficient crew training.
- Excellent individual and collective gunnery training device for full and scaled ranges.
- Fires 12.7MM SLAP-T, ball and 7.62MM ammunition
- A "Train as you Fight" device requiring little initial training to operate.
- Adapts to the vehicle's Fire Control System without harm to Fire Control components.
- Environmentally friendly with small noise signature and reduced range limit requirements.

A simple and rugged device designed for the vehicle's M242 weapon system. The GTS-M242 is built on the proven technology of replacing costly main gun ammunition with accurate and inexpensive sub-caliber ammunition.
