

GTS-25-M242

Gunnery Training System's (GTS) are a simple, robust and effective sub-caliber training system designed, developed and tested for use in Armored Fighting Vehicles utilizing the M242 25mm chain gun.

The Leader in Live-Fire, Sub-Caliber Gunnery Training Systems for the World's Armored Forces

Features & Benefits

- Simple installation, operation and maintenance ensures efficient crew training.
- Reduces ammunition costs drastically. Allows main-gun training on either full-scale or small arms range facilities.
- Excellent individual and collective sub-caliber gunnery training system for full and scaled ranges.
- Integrated mount/sub-caliber weapon weight balancing to simulate 25mm barrel center of gravity for stabilization controls.
- Developed on a "Train as you Fight" basis, reducing any negative training.
- FCIB that adapts the AFV's Fire Control System for replicating firing rates.
- Triple-locking lugs on mount assembly simulate the 25mm barrel to prevent rotation of the system during usage.
- Live fire MOUT training utilizing Short Range Training Ammunition (SRTA).
- Force-on-force training using blank fire adapter in conjunction with MILES System.

Detailed Specifications

GTS-25-M242-50

- M2HB series machine gun (not included)
- Full-scale (1500-2000m) gunnery training range
- NATO 12.7 x 99mm ammunition
- Mount assembly size:.....42" L x 14"H x 16"W
- Mount assembly weight:.....55lbs.
- Operational voltage:.....18-32 VDC

GTS-25-M242-762

- M240 series machine gun (not included)
- Half-scale (900m) gunnery training range
- NATO 7.62 x 51mm ammunition
- Mount assembly size:.....52" L x 9"H x 15"W
- Mount assembly weight:.....40lbs.
- Operational voltage:.....18-32 VDC

GUNNERY TRAINING SOLUTIONS

GTS-25-M242

GTS is a simple, robust and effective sub-caliber, gunnery training system designed, developed and tested for use in Armored Fighting Vehicles (AFV) utilizing the M242 25mm chain gun.

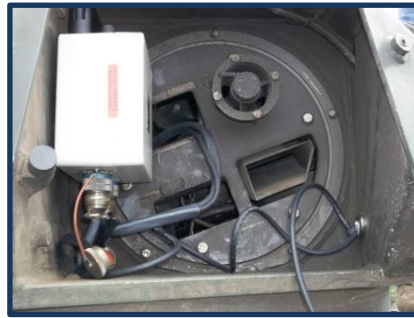

GTS-25-M242-762 BRADLEY A3

The Leader in Live-Fire, Sub-Caliber Gunnery Training Systems for the World's Armored Forces

Installation of GTS-25-M242

Step 1 – INSTALL THE INTERCONNECTOR TO THE M242 CANNON.

Step 2 – MOUNT THE FCIB IN THE 25MM LINK CHUTE AREA OF THE VEHICLE.

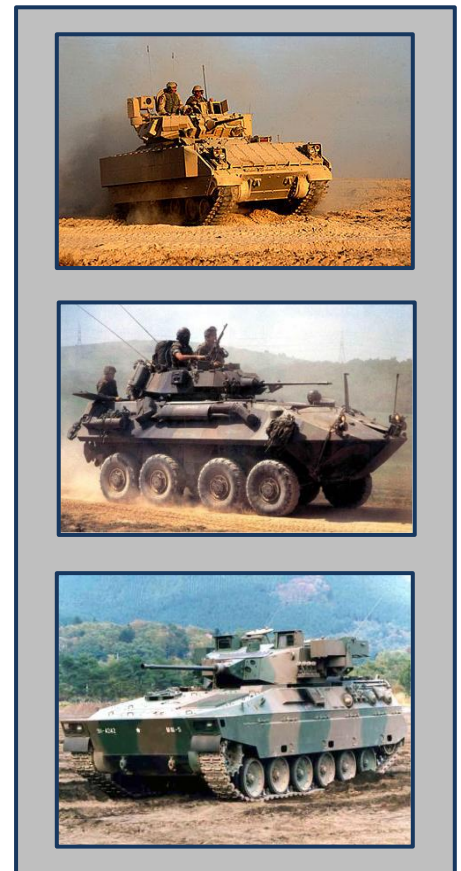

Step 3 – INSTALL GTS-25 MOUNT ASSEMBLY INTO THE M242 CANNON.

Step 4 – INSTALL SUB-CALIBER WEAPON WITH TRIGGER ASSEMBLY INSTALLED.

Step 5 – BORE SIGHT AND ZERO TRAINING SYSTEM IN ACCORDANCE WITH "TM" AND "UNIT SOP".
